

Solutions Advisors Awarded Management Contract for Spring Meadows of Lansdale

LANSDALE, Pa.—Solutions Advisors, a management company specializing in senior living retirement communities, has been awarded the management contract for Spring Meadows of Lansdale.

Solutions Advisors Chief Operating Officer John Ralosky is working alongside Spring Meadows' current team to ensure the Solutions Advisors value-added philosophy is embraced.

"I am pleased to add Spring Meadows to our management portfolio," said Ralosky. "Spring Meadows serves an important population segment of elderly living in the Lansdale area."

The personal care community recently received full licensure from the state's Department of Public Welfare and is in substantial compliance with its regulations. The community will undergo an extensive \$3 million renovation and refurbishment program in the coming months under the direction of Solutions Advisors.

"Improvements to the residential areas as well as structural improvements will greatly enhance the residents' experience," added Ralosky. "Solutions Advisors provides the expertise in managing and guiding senior living communities to reaching their goals. Undertaking this new direction for Spring Meadows will be the first step in revitalizing the community."

Spring Meadows, known for individualized healthcare management and service plans, will also incorporate a memory care wing as part of its renovation. The current number of employees will also increase with the addition of memory support residences.

"We see an unmet need for the accommodations and services that are especially geared to individuals with memory loss," said Ralosky. "Our goal is to be the value provider in the market place. Our residents deserve individualized and affordable services."

The community is geared to offering a homelike environment while providing each resident the care, attention and services needed to be comfortable and healthy while offering all inclusive pricing. Restaurant-style dining, social activities and care assistance including on-site physical, occupational and speech therapy will continue to be offered at the community.
